Application overview

As every gamer desires to play almost all different kinds and latest games but, it is expensive to buy all the games. So Gameswap is here to fulfill desires of all the gamers who wish to play all the games which they don't possess. This was the main idea behind the application.

- Application goal is to build an application which creates a platform for the users who are looking to swap/exchange their items with the others who are willing to do the same.
- This application is games based swap application.

Following are the application functionalities:

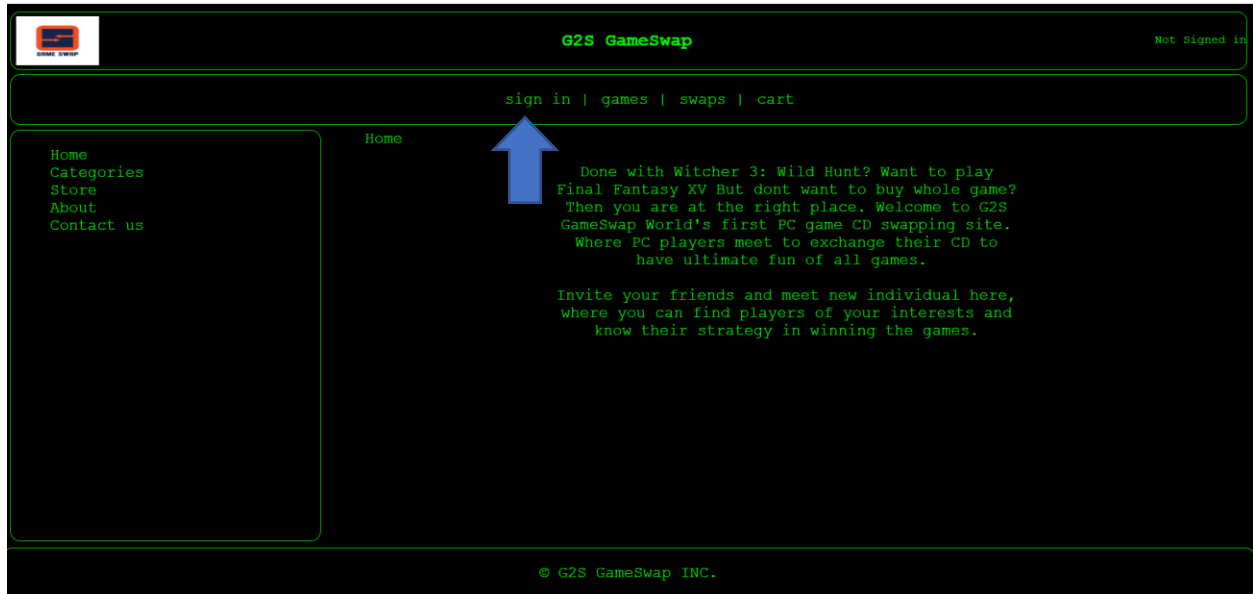

- Create a new account/Register with the application
- Sign in
- Catalog category view based on item category
- View items according to user profile
- Perform a swap
- Give feedback to the items and users
- Delete the items in the user profile

Manual overview

This manual gives a short overview of how to use the application like how to create an account, how to sign, how to create an offer, check items in profile, check swaps, rate user, rate item, delete the item

Creating an account

- First open the home page of the application with url <http://127.0.1.1:3000/index>
- Then click the sign in link in the top left corner in user navigation bar

- Then you will land on sign in page and on the sign in page click on the register link next to sign in button in sign in form

- Then you will get a form form for sign up where you can fill all you details and then click signup button

The screenshot shows the G2S GameSwap website's registration page. The header includes the logo, the site name 'G2S GameSwap', and a 'Not Signed in' status. A navigation bar contains links for 'sign in', 'games', 'swaps', and 'cart'. On the left, a sidebar menu lists 'Home', 'Categories', 'Store', 'About', and 'Contact us'. The main content area is titled 'Register' and contains a form with the following fields: 'First Name*' (james), 'Last Name*' (smith), 'Username*' (jsmith), 'Email*' (jamesjsmith@anyemail.com), 'password*' (*****), 'confirm password*' (*****), 'Address' (9966 kittansett dr Apt D), 'City' (charlotte), 'State' (NC), 'Zipcode' (28262), and 'Country' (United states of america). A blue 'sign up' button is at the bottom of the form, with a blue arrow pointing to it. Below the form, a note states: '* fields are required Password should have min length of 5 and no special characters are allowed'. The footer displays '© G2S GameSwap INC.'.

- If all the details are valid the you will get a success page if not you will be seeing the errors next to the form

This screenshot shows the same G2S GameSwap website after a successful registration. The header and navigation bar remain the same. The sidebar menu is also unchanged. In the main content area, the 'Register' title is replaced by a success message: 'james, your account was created sucessfully. Please [login](#) here'. The footer still shows '© G2S GameSwap INC.'.

Sign in

- Click on sign in link on the home page and the you will land on sign in page following that in sign in form give your valid credentials such as email and password with which you created the account. Then you will be redirected to home page if you click sign in from home page and the if you click it from any of the other pages the you will be redirected to that page.

H1Z1 is a free-to-play battle royale game developed and published by Daybreak Game Company. The game's development began after the original H1Z1 was spun off into two separate projects in early 2016: H1Z1: Just Survive and H1Z1: King of the Kill.

The games were further split as separate projects in October 2017, with Just Survive dropping the H1Z1 name, and King of the Kill becoming simply H1Z1. After three years of being in early access for Microsoft Windows, it officially released as a free-to-play game in February 2018. H1Z1 was released for the Playstation 4 in August 2018, and will be released for the Xbox One at a later date.
